

# New Breakthrough in Cancer Risk Assessment

Cancer has affected the lives of millions in this whole world. The survival rate for most cancers is quite low when symptoms appear while survival rates can be more than 90% when cancer is detected during the early stages. However, most people will only go for a thorough checkup when they already have symptoms of cancer. In this talk, the importance of early screening is highlighted and new cancer risk assessments are introduced.

19 April 2014 ( Saturday )  
4.00 pm - 6.00 pm

Venue :  
Malaysian Association For The Blind,  
Brickfields.

## SPEAKERS

Dr. David F. Harris, MD, FCAP is the Medical Director of GeneNews Diagnostics since 2012. Dr. Harris has been in the private practice of both anatomic and clinical pathology since 1979. He is a fellow of the College of American Pathologists and was a College of American Pathologists Inspector of hospital laboratories for 17 years.

Dr. Harris was graduated cum laude in physics from Dartmouth College. He received his MD degree from Cornell Medical College, New York City and was a student investigator at Rockefeller University, New York City. He did an internal medicine internship at Passavant Pavilion of Northwestern University Medical Center, Chicago, Illinois. He did his residency in clinical pathology at Walter Reed Army Medical Center, Washington, DC. His microbiology residency training was done at the National Institutes of Health, Bethesda, Maryland. After completing his clinical pathology residency he was an investigator in microbiology at Walter Reed Army Institute of Research. He did his anatomic pathology residency at Blodgett Memorial Hospital, East Grand Rapids, Michigan.

## CANSURVIVE & IT'S PURPOSE

Cansurvive is a support and information service for those who are challenged with cancer. Not just information and support, but a service that offers a greater awareness of the benefits of holistic, non-invasive cancer therapies, nutrition and diet, as well as orthodox treatments; what is available and where to access them. It is a window of light into the world of healing, where the word "Terminal" is a challenge, not a death sentence.

Organised by : CANSURVIVE CENTRE MALAYSIA BERHAD (903023-M)
